DEVELOPMENT AND LOCATION

Deo Plaza on Wyspa Spichrzów (The Granary Island) – currently one of the most desirable locations in Gdańsk. Redevelopment of this area has won the 2020 MIPIM Award (Le Marché International des Professionnels de L'immobilier in Cannes, is considered a “real estate Oscar”) in the category Best Urban Project. In addition to a hotel, apartments, shops and offices, the mixed project makes excellent use of its waterside location, with the construction of a new marina that gives the area a

dynamic touch. A pedestrian bridge creates the link between the island and the Old Town. The Crane Gate, the Green Gate and St. Mary's Basilica are just a few landmarks to name within a short walk. Active people will appreciate the fully equipped fitness area, the youngest – a fantastic playroom, and those seeking relaxation – extraordinary SPA.

An additional advantage of this location is the so called "Deo Pasaż" – Deo Passage, with an amber gallery, restaurants, coffee shops and clubs, such as the three-story Deo Sassy, filled with art and design.

A short walk will allow you to take advantage of the offer of the Polish Baltic Philharmonic, the Shakespeare Theater, the Wybrzeże Theater, the Science Center – Hewelianum, European Solidarity Centre or shopping in the "Gdansk Forum" or "Madison" – shopping malls.

Moreover, there is an exceptionally convenient access to public transport.

STANDARD

The apartment is fully furnished and finished with the highest quality fine materials. Wood, stone, highest quality oak floor beautifully blend with timeless Calacatta marble dominating the walls of the hall and the kitchen. Black stone island completes the picture. Doors in a discreet frame, perfectly selected woodwork, including an elegant RTV cabinet with storage space emphasize the special character of the interior. Bathrooms materials are dominated by stone and wood, with decorative accents of Wall&Deco wallpapers. Coherent, perfectly chosen lighting and accessories emphasize the highest quality of this apartment. Modern and fully functional architectural design is likely to satisfy the most demanding customers.

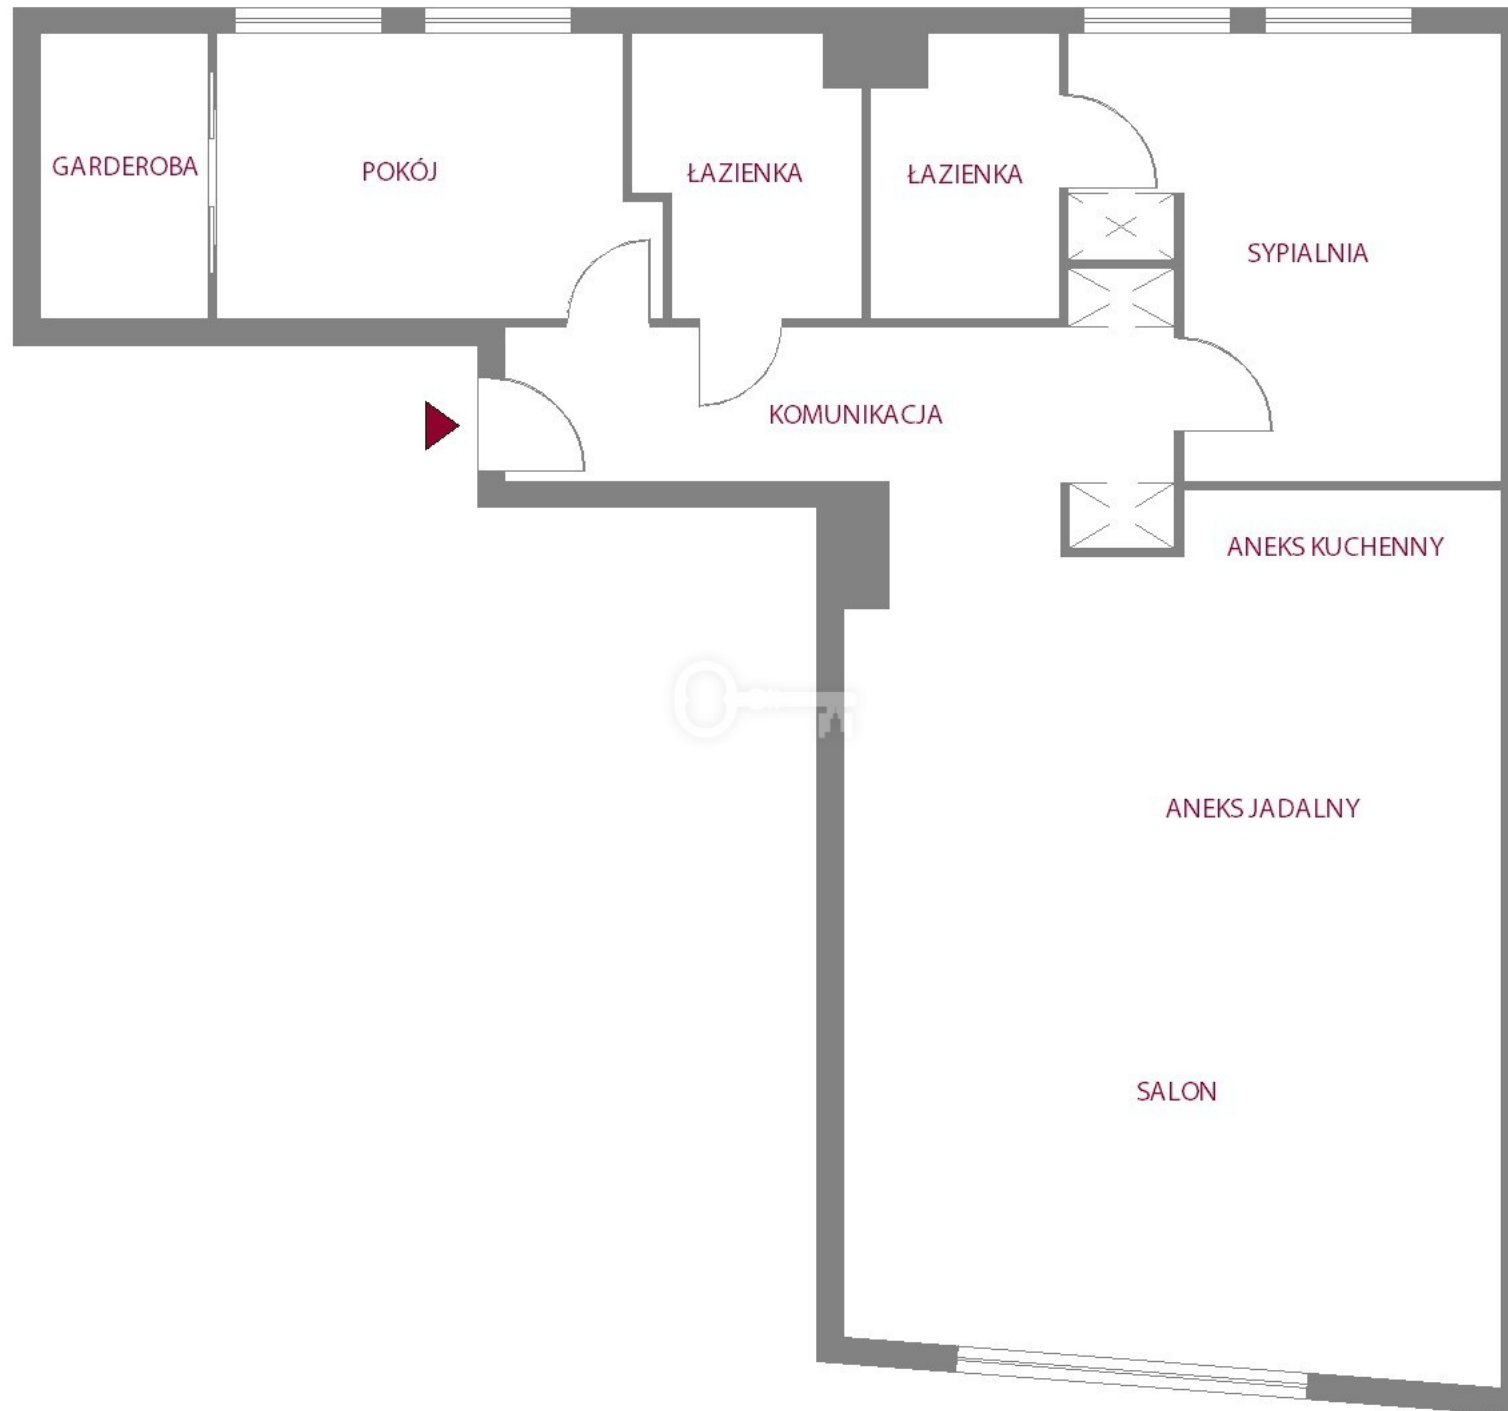

Deo Plaza is an architectural model for the entire development, the name of which is a tribute to the history of this extraordinary place. The height of the buildings and the soaring roofs have been preserved. An interesting solution are facades made of high-quality stone, ceramics, a large amount of glass and steel (also corroded), bricks and concrete. High-quality finishing materials inside the building, stylish common areas and silent elevators complete the image of a luxurious development.

I invite you to the Presentation.
