#### **MAIN ADVANTAGES:**

The house is located in a very good place, in a small street running parallel to Patriotów street, along which runs the SKM line to Otwock. Thanks to this, despite the considerable distance from Śródmieście, communication with it is comfortable and fast.

An undoubted advantage is also the recent opening of a section of the southern bypass of Warsaw, from which we can reach the building in literally a few minutes.

A large number of rooms allows for easy adaptation to activities of many different profiles. The property will work well as a base for design activities, or an online store.

The building is divided into two parts, each with a separate staircase. There are passages between the parts in the basement, on the ground floor and on the 1st floor.

The advantage is a large basement with a garage, and an independent garage for two cars outside.

The building also includes a large and very picturesque garden with two terraces overlooking it.

**LOCATION:**

The main advantage of the property is the walking distance to the Warszawa Miedzeszyn SKM station. The suburban railway allows you to get to the very center in less than 20 minutes. In addition to the station, literally a few hundred meters from the building, there is a junction of the southern Warsaw bypass, through which we can comfortably and very quickly get to Wilanów or towards Majdan.

In turn, via the main communication artery of the region, Patriotów Street, we will quickly get to Gocław and further towards Praga or Śródmieście.

There is a school in the area, several shops, including one large-format, as well as a pastry shop and a gym.

The whole area is in fact in a forest, and the louder Patriotów Street is separated from the property by a number of houses, so it is green and quiet around.

**ADDITIONAL INFORMATION:**

The price includes the estimated costs of utilities in the amount of about PLN 600 / month.

Electricity and internet payable separately
